

Typical chemical and physical properties

Acts as an adhesion promoter, corrosion inhibitor and wetting agent for glass substrates. It is non-foaming and imparts anti-corrosion properties for ferrous and aluminium substrates. It allows flow regulation and shows wetting performance.

Proprietary blend of polyalkylene glycols and polyhydroxy amide.

Appearance	Liquid
Solubility	
Water	Miscible
Density at 25°C	1,13 - 1,18 g/ml
pH at 25°C	3 - 8
Viscosity at 25°C	<100 mPa·s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Coating industry Cleaning industry Ink industry
Applications	Coatings Printing inks Cleaner agents
Recommended dosage/usage	0,05 - 2 % based on total formulation

Key benefits

- **Readily biodegradable -- Biobased -- APEO/NPEO free -- Solvent free -**
- Excellent adhesion promoter for glass substrates.
- Offers resistance against glass corrosion in dishwashing applications.
- Provides anti-corrosion properties for ferrous and aluminium substrates.
- Non-foaming.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)

Quality Policy The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance.

The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.

Liabilities *All recommendations for the use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge. Notwithstanding any such recommendations, buyer or user remains responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose. Since we cannot control the application, use or processing of the products, we cannot accept responsibility thereof. Buyer has to ensure that the intended use of the products will not infringe any third party's intellectual property rights. We warrant that our products are free from defects in accordance with, and subject to, our general conditions of sale and supply.*
